His Excellency Hon. Semi Koroilavesau,
Minister for Fisheries, Fiji

> ***The greatest challenge for the farmer and the shrimp industry of today is the establishment of sustainable practices that reduce the inherent costs while enhancing the reliability of farmed shrimp production. The industry therefore needs to examine itself and its approaches working towards establishing a sector with more consistent production and employing better practices (including regulations) that would ensure a better future than we could have expected, given our past history***

Field visit to shrimp farms and hatcheries

SHRIMP 2019 Bangkok

World Shrimp Trade Conference and Exposition

"Modelling for Sustainability"

12-14 November 2019 | Bangkok, Thailand

Global production of farmed shrimp is estimated at between 2.9 million MT and 3.5 million MT, with Asian producers – China, India, Indonesia, Philippines, Thailand and Vietnam – sharing 75-85% of the total volume. Following moderate recovery in the sector in Thailand and Mexico, and expanded *vannamei* farming focused in China, India, Indonesia and Vietnam, overall production is expected to be positive in 2018.

Driven by environmental and social factors, as well as the recurrent disease outbreaks in shrimp farming, the focus now is towards sustainability. With the various challenges faced by the shrimp industry, there is a need to properly identify and promote systems that will lead to sustainable development. Knowledge of credible standards and regulations of different importing/exporting countries is of paramount importance to facilitate compliance and harmonious trade. Further, opportunities to strengthen international co-operation on technical, policy and trade issues on global shrimp industry must be highlighted.

There is a special concessionary fee of US$ 400 for delegates from INFOFISH member countries before 21 September 2019 and US$ 500 after that date.

INFOFISH member countries are Bangladesh, Cambodia, Fiji, India, Iran, Malaysia, Maldives, Pakistan, Papua New Guinea, the Philippines, Solomon Islands, Sri Lanka and Thailand.

THE CONFERENCE

The international conference on shrimp, themed as **"Modelling for Sustainability"** will consider at length the present and future of the industry, focusing on moving towards sustainability. A large part of the sessions will be devoted to production and trade at the domestic and international levels, as well as the latest developments in the shrimp industry. Some 250 delegates, both international and local, representing various segments of the seafood industry, are expected to participate.

THE EXHIBITION

In conjunction with the conference, an exhibition will be organised at the same venue. The event will showcase and promote products, supplies and equipment from regional and international players. A total of 20 exhibition booths have been allocated for seafood exporters/importers, processors, equipment suppliers and manufacturers around the Asia-Pacific region and worldwide.

THE ORGANISERS

SHRIMP 2019 is jointly organized by the Department of Fisheries, Thailand and INFOFISH.

THE VENUE

SHRIMP 2019 will be held at the **JW Marriott Hotel Bangkok, Thailand,** ideally located on bustling Sukhumvit Road in Bangkok, Thailand, near a wealth of landmarks in the city center, 6 km from Terminal 21 mall, 8 km from the ornate Grand Palace and 5-minute walk from the BTS skytrain.

Special concessionary room rates are provided for delegates. For hotel reservation details please contact INFOFISH.

REGISTRATION FEES

Conference

Early Bird registration fee of **US$ 500** per delegate received before **21 September 2019,** and **US$ 600** if received after that date. The fee covers coffee breaks, lunches, conference kit and documentation. An additional fee of **US$ 100** entitles accompanying spouse to lunches and reception only. The registration fee does not include hotel accommodation.

Exhibition

A standard shell scheme stand:

US$ 1000 (local) or **US$ 1500** (international) if booking received before **21 September 2019** or **US$ 1500** (local) and **US$ 2000** (international) if received after that date.

In a special offer, with additional **US$ 500**, each exhibitor is entitled to:

½ page colour advertisement in the INFOFISH International magazine

½ page colour advertisement in the conference programme book

50% discount on the registration fee applicable to one delegate only

CANCELLATION FEE

The registration fee will be refunded, less 25% as the cancellation fee, if received before 21 September 2019. No refund can be made for cancellation after 21 September 2019. However, a substitute delegate may attend in place. Any refunds, if applicable, will be issued only after the event.

POST-CONFERENCE TRIP

A post-conference trip to shrimp farms in the locality will be organized after the conference.
